WIRA INSTRUMENTATION

Card Winder

For preparation of yarn sample cards and test cards for colour matching

Power driven inspection card winder, popular for the preparation of sample cards and colour test specimens.

Can accommodate cards of length 150 to 320 mm and a maximum width of 100 mm. A maximum of 12 separate yarns can be wound onto the same card.

A pretension device ensures constant tension of the yarn as winds on the cards.

Dual speed control ensures total flexibility of the wrap and lay and a pre-set counter determines the number of layers.

Conforms to ASTM D2255
Dimensions: 820mm (W), 600mm (D), 600mm (H)
Net Weight: 55 Kg
Power Requirements: 0.1 kW

Order Code: CDW:004

Key Features

- ✔ *Variable Speed, 50 - 850 rpm*
- ✔ *Automatic stop*
- ✔ *Dual speed control*
- ✔ *Pretension device*
