

RapidPro[®]

Hand Held Moisture Meter

No longer do you need to settle for a 'one size fits all' hand-held meter

The Wira RapidPro is the latest technology for the rapid measurement of moisture. Designed to measure textiles and nonwovens as well as a wide range of associated materials, the hand-held meter offers instant results from an ergonomically designed device.

Custom Calibrations

The Wira RapidPro comes with multiple calibrations built in. In addition, custom calibrations of your own materials can be added easily to the unit's memory.

The Rapid Pro is available with a variety of sensors for different uses;

- A 2-pin-probe for bales
- An 8-pin probe for cones
- A mini-can sensor for loose fibre
- Custom probes are available for fabric and other materials

Features

- ✓ Multiple calibrations for a wide range of materials
- ✓ Customisable for your own unique materials and blends
- ✓ USB connection for charging and data transfer
- ✓ Colour touch-screen display
- ✓ Lightweight and easy to use
